Hello Mrs. Brothers I expect you really didn't think I would send the beet relish recipe but here it is. How did you get across the border with your wood and did you have a nice trip on to Oregon. Sure is hot and dry here now hasn't rained since before you left. Haven't saw a thing of Mr. Crabtree since you left but guess he can still sing. Benito Gorham has been working for John but finished work last week. We sure like him. Sidney came up two weeks ago first time I had saw him in 21 years had dance while he was here we sure enjoyed hearing him play he made me think of Josh they play so much alike did you find your children all well and how is your claim coming along do hope we get enough out of them to buy a small home well new is awful scarce will try to do better next time

Your friend
