Dear Josh and Edna,

Gus & Eva sent me that list of Henry Sanford Gorham's descendants. We did not know there were 14 children - we thought there were seven girls with Elizabeth (Lizzie) being the oldest and Virginia the youngest. The cousin I found her in Reno, Genie Bingley, is the great granddaughter of Lizzie. That is if Lizzie married a man named Sanders. Do you remember who you're Aunt Lizzie married. Would appreciate if you could send any more information on the Gorhams.

Josh, you are my father's Vasco) first cousin are you not ? and Edna, was Bertie Burke (Foster?) your mother ? Sorry---I left Texas when I was young that I don't remember very much. I did not get too involved in family trees until my eldest son asked me to do a history like his Mormon friend has.

Edna, I do remember you. I was very impressed with your way of washing your face. Remember ? you used buttermilk. You thought of beauty and I was sill Young enough to think only of my stomach., I wanted to drink it. Ha !

I wish I could see you folks, Gus and Eva seem to like all the Texas relatives.

Eva gave me the picture of you Josh. But I only remember you when you were 18 or less.

I had copies of those names made. I'll enclose one if you can think of any names of the ones they married, you could just write beside the name.

Would love to hear from you,

Love to you both
Your cousin Clara"
